Hot House Gardens – Interior Landscapes by Graham Marchant

Graham Marchant is quietly obsessed with the delicacy of the cultivated garden and in his exhibition (on display during the Marrickville Open Studio Trail) he turns his eye inwards to examine and expose the secret places of the gardens themselves. He takes us on a journey, confronting us with intimate views of hot-housed secrets, both exotic and familiar. The exhibition runs from Saturday 9th to Saturday 30th March, and gallery opening hours are Wednesday to Sunday 11am to 5pm. For more information visit www.artsite.com.au.
